Comprehensive 360° graphic design support

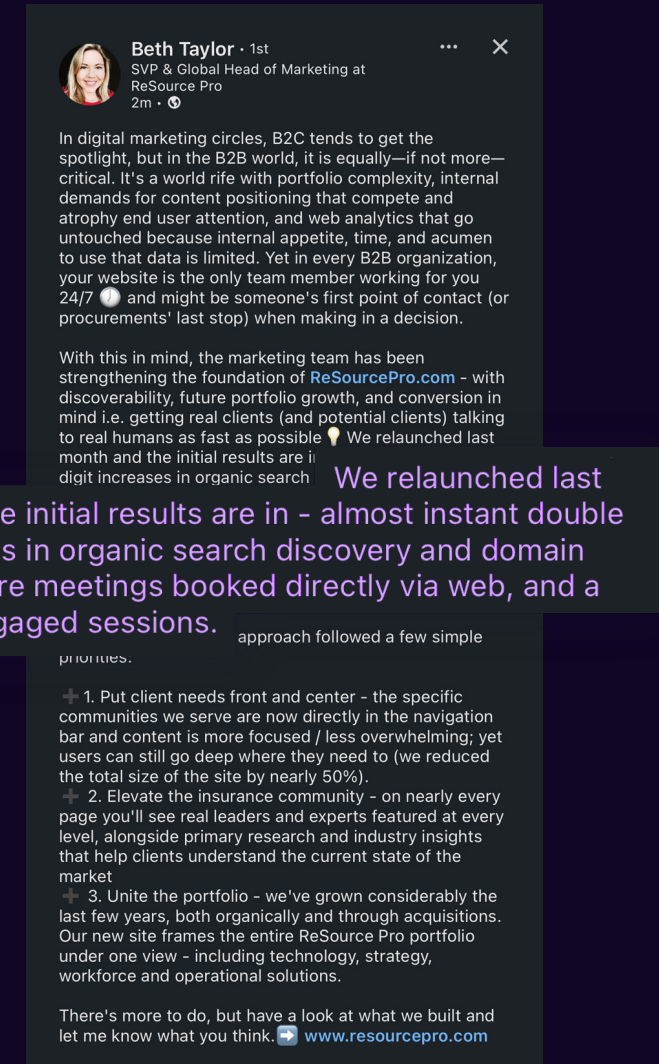

Since 2024

ReSource Pro is BPO and technology services company from New York, providing administrative and analytical support to insurance sector.

Working at ReSource Pro as a Creative Designer, I'm responsible for creating visual solutions that support the company's marketing and branding initiatives. My core areas of expertise include:

- designing website interfaces - I am the author of the current design system used across all company web projects,
- designing and developing landing pages for marketing campaigns (in addition to Figma design work, I also build landing pages and forms within the Adobe Market environment),
- creating style guides for new services - including new brands and new marketing-driven projects,
- producing animations for websites and presentations,
- providing comprehensive graphic support for corporate events.

FOR CARRIERS, MGA's, AND WHOLESALERS

Get future-proofed

Move forward into the digital age of insurance with confidence.

Talk about tech >

Make your digital goals a reality

When it comes to digitizing, insurers face their own unique challenges. We have the domain expertise to help you future-proof your organization with data analytics and tailored automations for insurance, providing the report support you need to achieve your digital transformation goals.

- Automate repetitive tasks
- Improve risk modeling and management
- Work on digital transformation

Sync your process and technology

Featured product: **Managed Technology Services**

Our proprietary tool, GenRx, helps you generate cost-effective reports and general ledger reports, keeping you compliant and saving time for the time-consuming tasks of manual calculations and data entry. It automatically updates and merges claims and policy rules, and corrects source data.

Benefit from robotic process automation

Featured product: **RPA**

We help you implement RPA for the greatest impact, by automating time-consuming tasks and reducing cycle times. Find automation solutions for almost any insurance-based task, including activities you wouldn't typically outsource.

500+ RPA processes

640+ RPA experts

126,000+ hours saved annually with automated processes

[Read our guide to identifying automation opportunities >](#)

UX/UI Designer

# Sandoz

## UX/UI design for Corporate Websites

As an external UX/UI designer, I was responsible for leading projects focused on creating new and improving existing websites for brands and line of businesses within the Sandoz portfolio.

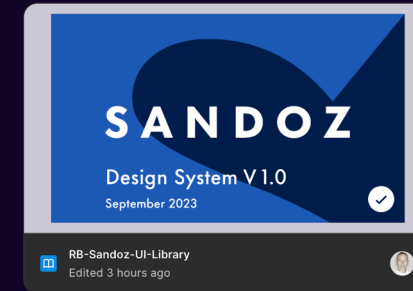

Working closely with Project Managers and business-side clients, I served as the lead designer on projects for the Swedish, Polish, Austrian, Romanian, and Russian markets. In my work, I utilized component libraries as well as the official Sandoz brand guidelines provided in the company's brand guide.

My main responsibilities included:

- creating UX designs in accordance with Sandoz brand guidelines,
- preparing graphic assets (graphics, charts, photos, illustrations) in the appropriate formats for developers,
- auditing existing solutions to identify opportunities for improving conversion,
- conducting usability research on existing websites.

The right choice for the first symptoms of indigestion

More about LINEX® FORTE

A probiotic for the restoration of the balance in your gut

Trust your digestion

Stress, a change of the environment, or infections (e.g. stomach flu or an intestinal virus) are factors that can negatively impact the composition and functioning of beneficial microorganisms in a healthy gut. For a better digestion, the combination of high-quality probiotic bacteria will help you establish or maintain the balance of your gut microbiota. So you can trust your digestion once again.

Dysbiosis: the source of your indigestion

Dysbiosis of the gut is the imbalance in the composition and functioning of the microbiota. Usually, dysbiosis occurs when stress or a change in our dietary habits causes an imbalance in our gut microbiota. The symptoms of this imbalance are flatulence and bloating, constipation and diarrhea, an unpleasant feeling in our stomach or poor digestion.

More about dysbiosis

LINEX® FORTE probiotic medication

Medications of the LINEX® brand are the only OTC probiotic medications in Europe containing beneficial probiotic bacteria that treat dysbiosis, reduce the frequency and intensity of mild to moderate indigestion (particularly discomfort, flatulence, flatulence and bloating) occurring due to an imbalanced gut microbiota, and help swiftly restore the balance of our gut microbiota.

3 of the most frequent symptoms of dysbiosis

Diarrhoea

Diarrhoea consists of no fewer than three stools in the toilet and soft to liquid bowel movements in 24 hours.

More about diarrhoea

Flatulence and bloating

An excessive amount of gases accompanied by a bloated feeling in the stomach can also be caused by changes in the composition of our gut microbiota.

More about flatulence and bloating

Constipation

As a symptom, constipation is difficult to define but usually means poor bowel movements (3 to 4 times a week) or the feeling of an incompletely emptied bowel.

More about constipation

3 reasons why you should not forget about beneficial probiotic bacteria

They have a beneficial effect on the immune system

Ever since birth.

They have a positive impact

The positive impact of beneficial probiotic bacteria on the gut microbiota of your child and on its maturing throughout the first years of your child's life has been scientifically proven.

They help regulate our digestion and resolve indigestion

They help to alleviate indigestion by naturally supporting the functioning of the gut microbiota.

IndigestionChild digestionProbiotics with antibioticsSource of immunityChildren's immunityGood to knowProducts

A childhood without indigestion is possible

More about LINEX® LINBI

LINEX® LINBI dietary supplement

When the gut microbiota of your child needs support

Probiotics play an important role in the protection of the gut microbiota, preventing diarrhoea or alleviating flatulence in small children through their beneficial properties. During antibiotic therapy, they can play an important role in restoring the balance in the gut microbiota of your child, alleviating side effects of antibiotic therapy.

What causes indigestion in children?

The most common causes for indigestion in children are bacterial and viral infections of the gut, allergies and intolerances to various types of food, inappropriate diet with insufficient fibres, immature gut and intestinal microbiota which can cause colic in babies, or lack of physical activity. If babies and children get diarrhoea, this may cause dehydration and health hazards or inhibit the development of gut microbiota which is vital for healthy digestion and a normal development of your child's immune system.

LINEX® LINBI OTC probiotic medication

The LINEX® LINBI probiotic medication contains bifidobacteria Bifidobacterium animalis subsp. lactis, BB-121® and, relevant, alleviates, or prevents indigestion, particularly diarrhoea, as well as side effects occurring in the gut microbiota when taking antibiotics, in babies and toddlers. Bifidobacteria help create a healthy balance in the gut, thereby supporting the development of the immune system which will follow the child well into adulthood.

2021 – 2024

## Design Manager in Corporate Marketing Department

MicroStrategy is a US based public company (Nasdaq: MSTR) that provides business intelligence and analytics solutions to analyze internal and external data.

While working for MicroStrategy for almost three years – first as a UX/UI Design Manager and later as the Design Manager for the entire Corporate Marketing department (Head of Design Team), I was responsible for leading and overseeing all graphic design projects within the company. I worked on hundreds of projects in every area of corporate & product marketing, website design, and brand management.

My primary focus was on digital initiatives, including:

- designing and developing the corporate website and its related landing pages,
- designing and supervising the visual branding for corporate events,
- creating visual concepts for marketing campaigns,

I also worked on printed materials, industry trade shows, and corporate conferences. I supported the sales department as well as all marketing activities carried out in 9 languages across markets on 5 continents.

To Whom It May Concern:

### Letter of Recommendation for Marcin Wasilewicz

It is with great pleasure and a touch of regret that I write to recommend Marcin Wasilewicz, whose tenure at MicroStrategy has been marked by unwavering commitment and remarkable achievement since he joined our Warsaw office in July 2021. Marcin's decision to relocate to Zurich, Switzerland with his family signifies the end of a fruitful chapter with us, and while his presence will be deeply missed, we are excited for the new path he embarks upon.

Marcin's role at MicroStrategy rapidly evolved due to his exceptional talent and work ethic, culminating in a well-deserved promotion where he skillfully managed a team of three designers. Under his leadership, his team flourished, delivering a series of successful projects that have significantly enhanced our brand's stature. His ability to work collaboratively across a global team has not only fostered a spirit of unity but has also driven results.

Amongst his numerous contributions, Marcin was instrumental in creating and implementing a new brand guide for the company, revitalizing the look and feel of our website, and managing the design execution for our annual user conference, both virtually and in-person. His strategic approach to these projects has left a lasting impression on our brand narrative.

Marcin is not only a dependable colleague but also an incredibly versatile and talented graphic designer. His well-rounded skill set, coupled with a proactive attitude, has seen him exceed expectations in every project he undertakes. His designs speak a universal language of clarity and innovation, resonating well with our diverse B2B clientele and stakeholders.

While we are saddened by his departure, I am confident that Marcin's dedication and creativity will bring about transformative experiences wherever his career may lead. I recommend him to you unequivocally and without reservation. Should you require any further information, please do not hesitate to contact me.

Sincerely,  
Maciej Godlewski

Auto AI

Optum, a division of UnitedHealth Group, utilizes clinical expertise, technology, and data to empower individuals, partners, and providers in their journey towards better health.

Optum provides organizations with comprehensive insights into their patient population via dashboards and reports, allowing them to minimize care delivery variations, enhance quality, and optimize care management programs.

Optum provides Optum Performance Analytics (OPA), an AI-powered analytics application designed to help providers and payers optimize health systems in the transition to a value-based care system. OPA has gained significant adoption, with over 70% of US health plans utilizing it for various purposes such as risk and contract optimization, provider network management, quality and clinical integration, care coordination, and patient engagement.

VISA | 2021

# VISA Europe

UX/UI Designer

Project to enhance an existing mobile application with insurance-related functionalities for customers using Visa cards. The work included adapting the application's structure and visual design to the existing solution while introducing new features.

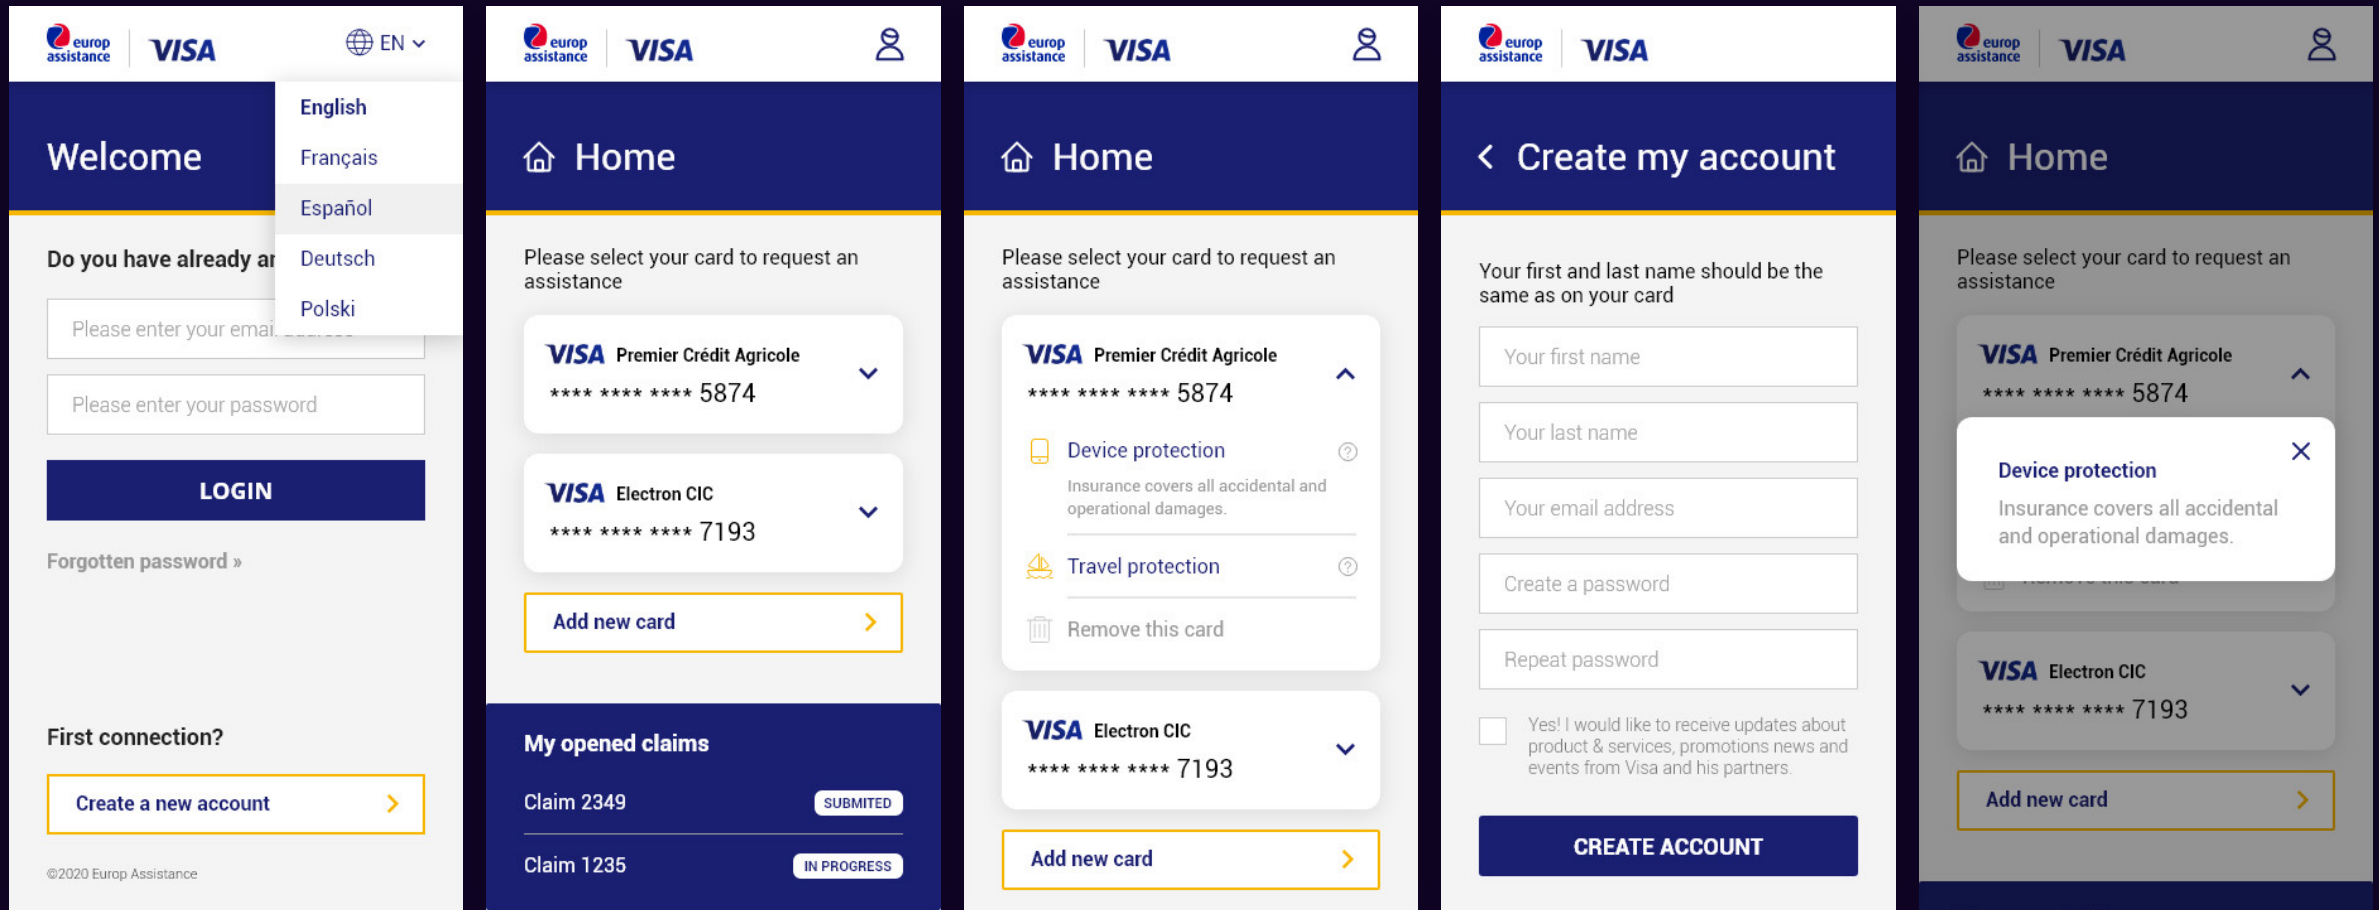

Scope of work: Information Architecture • Visual Concept • Wireframes  
• Development Documentation

The project was implemented across several European markets.

## Graphic and functional design of the mobile application

# Generali Concierge Services

Web Designer

The project involved a visual refresh and a redesign of the functional layout of a website dedicated to current and potential partners cooperating with Generali.

Scope of work: Visual concept • UX/UI design • Mockups • Interactive prototypes

Project has been published on [general-concierge-services.com](https://general-concierge-services.com)

# Generali Concierge Services

2022

[About us](#)[Our services](#)[Partners](#)[Careers](#)[Contact us](#)[EN](#)

## Retain your precious members

Increasing demands, the desire for unparalleled experiences, and a lack of time are all reasons why personalised attention, privilege, and exclusivity are key prerequisites for fostering loyalty, engagement, and emotional attachment to your business, your brand.

[Discover our services >](#)

**Become a partner**

### Showcase your expertise

We are dedicated to providing a superior experience for our clients. In pursuit of this goal, we are constantly seeking to expand our network of partners. We welcome skilled artisans, restaurateurs, hoteliers, merchants, and service providers who share our commitment to excellence. By joining our network, you will have the opportunity to enhance your visibility and develop your business.

[Join our partner network >](#)

**Career opportunities**

### A career fueled by passion

Are you someone who has a natural talent for service and an interest in culture, travel, and gastronomy? Do you enjoy going above and beyond to satisfy demanding customers? If so, come join us at Generali Concierge Services. We offer an exciting profession where your skills and knowledge will be appreciated by both our clients and our team.

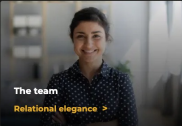

[Join us >](#)

**Exclusive concierge services**

## Dream big, we'll deliver

We understand the importance of creating meaningful experiences that strengthen the emotional connection to your brand. That's why we offer a team of expert lifestyle advisers available 24/7, personalized offers, and cutting-edge technology to satisfy even the most demanding requests from your clients, employees, or members. Together, we'll build loyalty programs that align with your business values and requirements.

## Capacities to match its high ambitions

Home / [About us](#)

### OUR HISTORY

20 years of expertise in the concierge industry

**2003:** on the request of the G.I.E Carte Bleue, Europ Assistance, a company in the Generali group, is officially launching its first dedicated concierge service pole in France for Visa Infinite cardholders

**2016:** the Europ Assistance group has taken a new step and decided to create Generali Concierge Services, a wholly-owned subsidiary of the group, entirely dedicated to the concierge service to support its strategic ambitions in this field and to better meet its customers' expectations.

Our financial stability, recognized expertise in customer service, and constant adaptation to new digital communication tools allows us to confidently offer unparalleled concierge services to our VIP and high-net-worth clients.

### OUR VISION

To be the most reliable player in the industry

Generali Concierge Services is the new benchmark for personalized concierge services: because each of our clients is unique, we develop a customized offering and program that respects their image and aligns with the specific needs of their customers, employees, or members.

Our future is both in France and internationally, supporting major clients of the Europ Assistance group, as well as other companies with unique premium concierge, assistance, insurance, and lifestyle solutions.

*"We aspire to be the most reliable and sustainable concierge service company for the Group's clients worldwide, by offering personalized service and exclusive access to exceptional and emotional experiences."*

Emmanuel Légeron,  
General Director Generali Concierge Services.

## Expertise in creating the unique

### OUR AUDIENCE

Your most valuable customers, employees, or members

**Your Customers**

- Enhance your customers' experience and strengthen their engagement with your brand
- Foster loyalty of high-contributing customers

**Your Members**

- Make your members' daily lives easier and reinforce their engagement in your community
- Enhance the experience of a VIP member within an exclusive membership club

**Your Employees and Collaborators**

- Take care of your most valuable employees and help them in their daily lives
- Capitalize on the well-being of your employees and reinforce their engagement at work

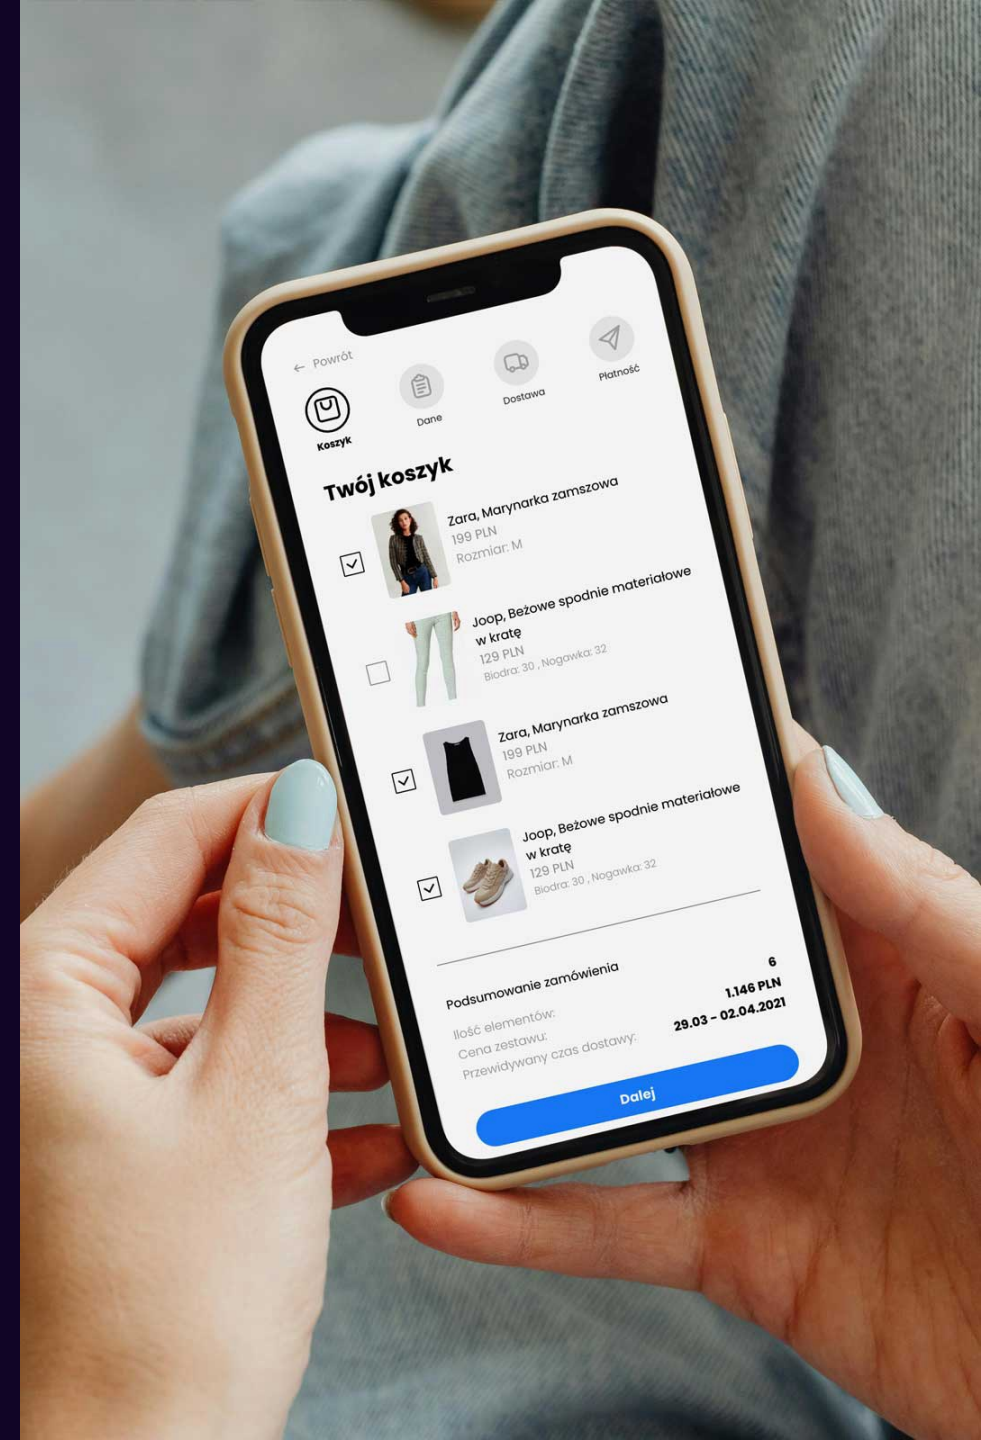

stylingo | 2021

# Stylingo

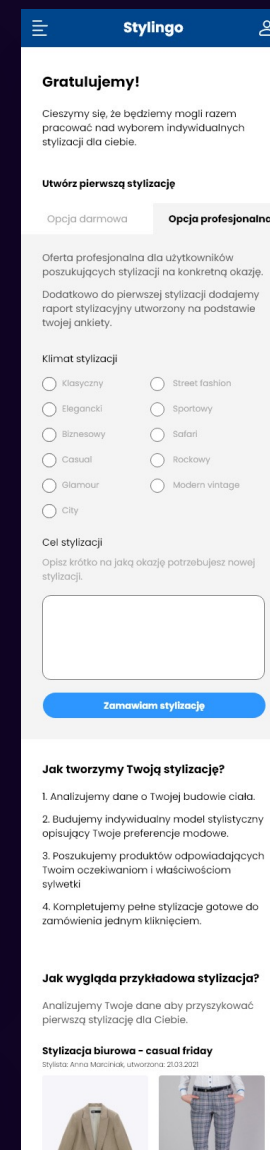

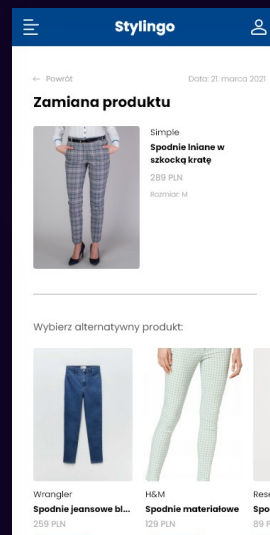

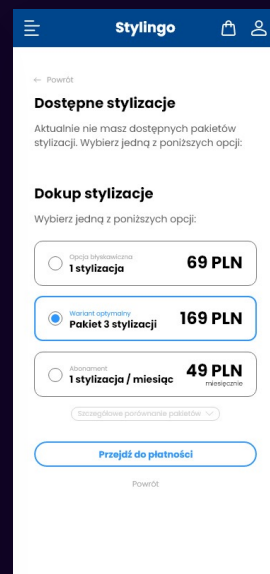

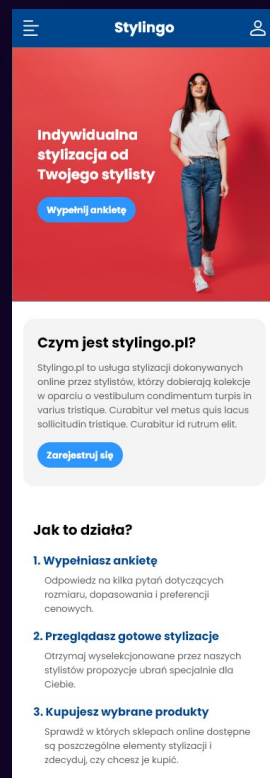

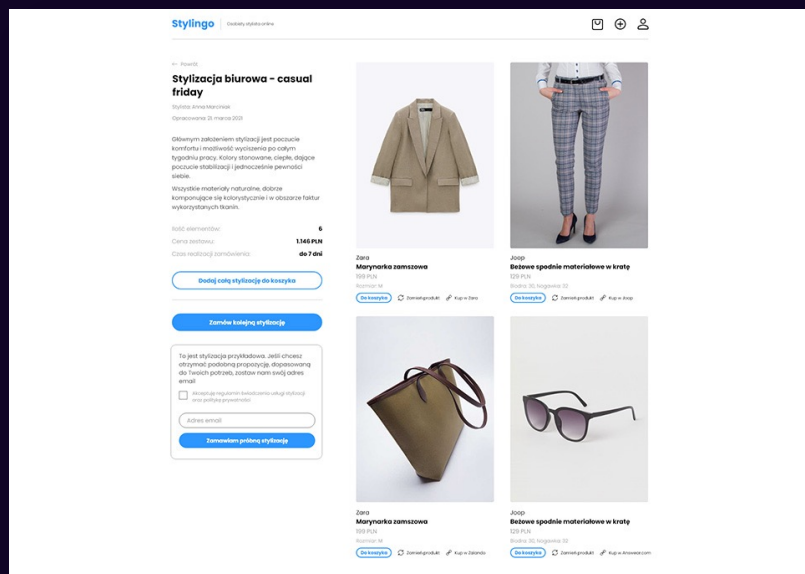

UX/UI Designer

Development of a solution that allows the provision of personalized styling services, taking into account the decisive factors on the client's side (preferences, body structure, styling purpose). The solution included a website design on the user's side as well as administrator / stylist interface elements.

Scope of work: Service architecture • Mockups • Prototyping

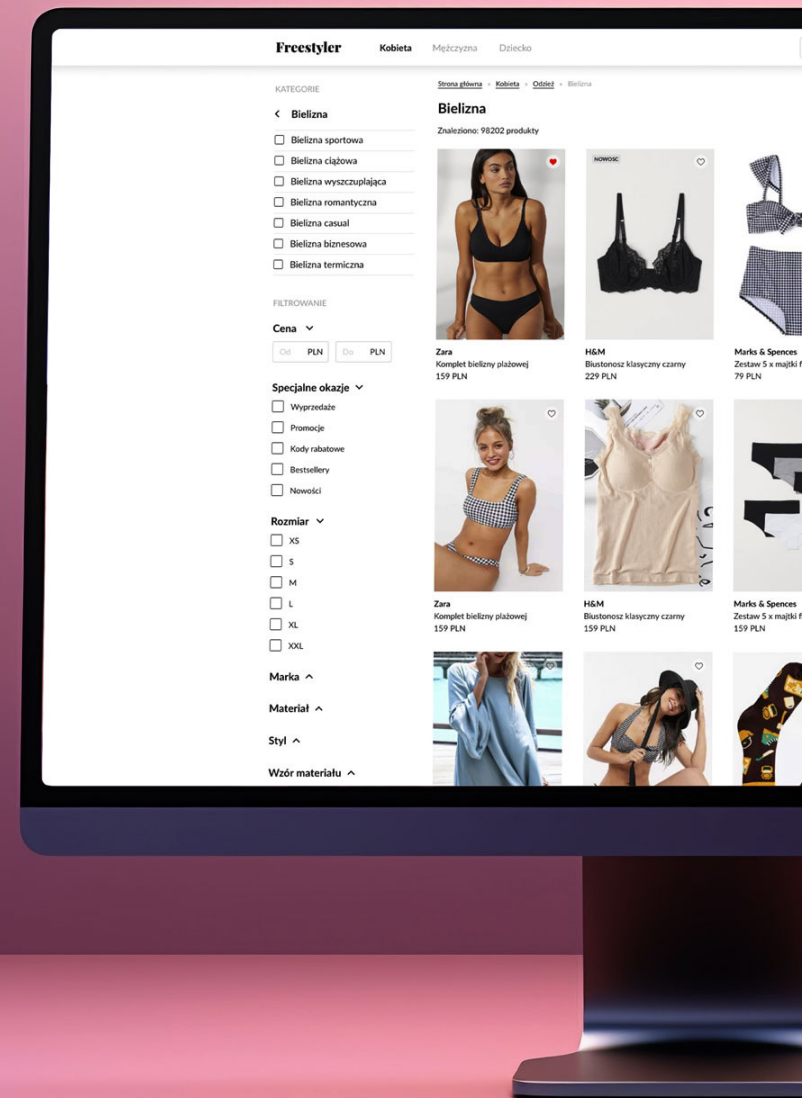

Planeta Mody | 2021

# Fashion agregator

UX/UI Designer

Creating a website that aggregates sales offers of fashion products from many brands available on the Polish market. A solution focused on providing better functionality compared to competitive solutions existing on the market, while implementing innovative solutions in the field of AI (recognizing product details).

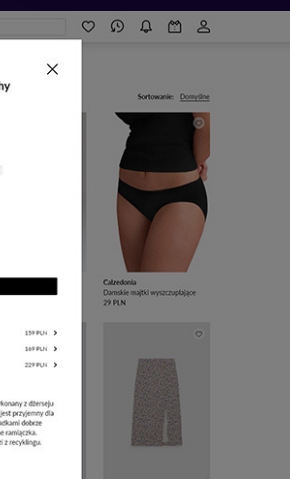

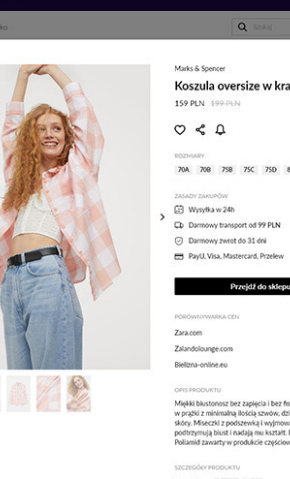

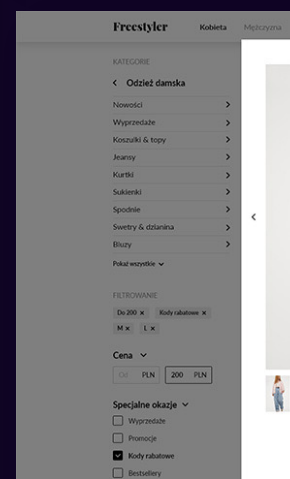

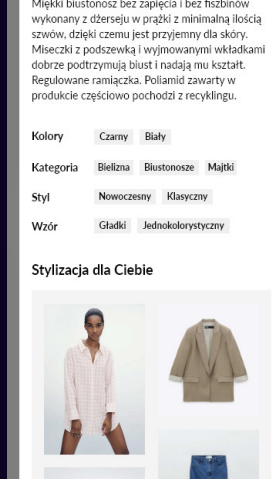

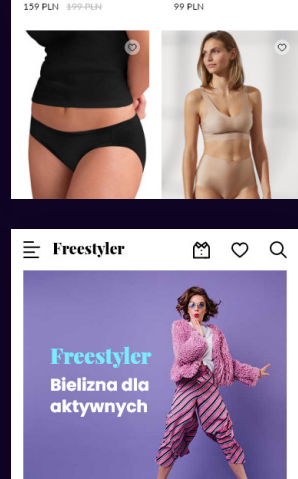

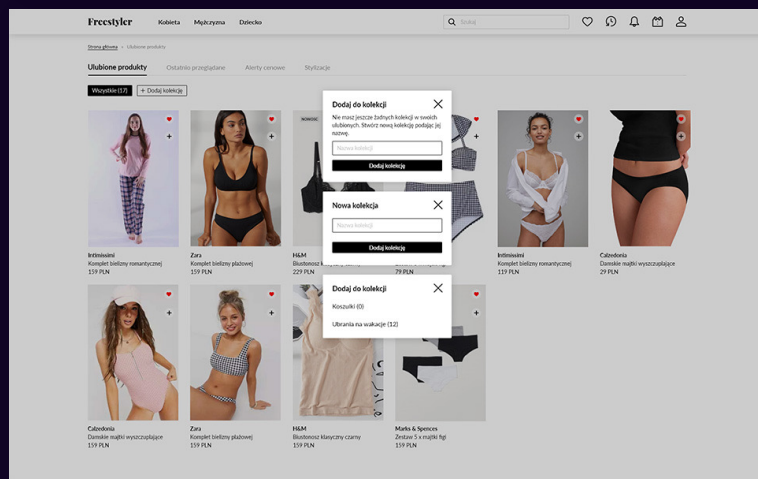

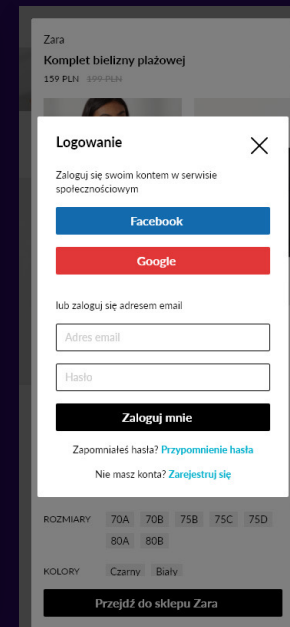

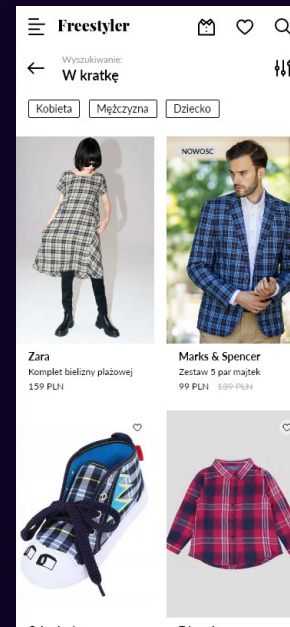

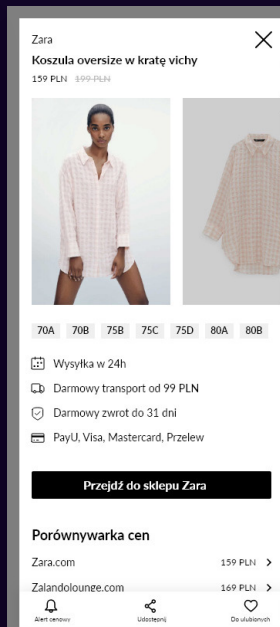

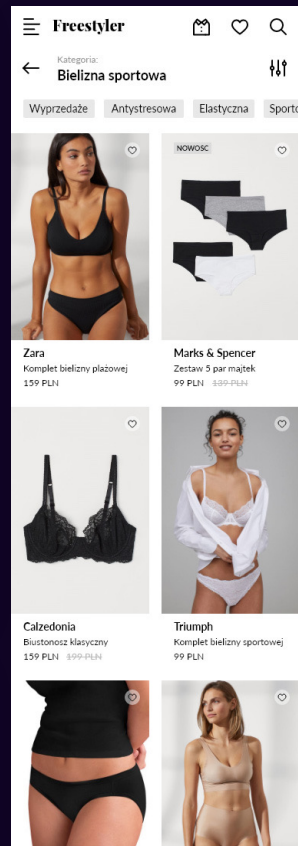

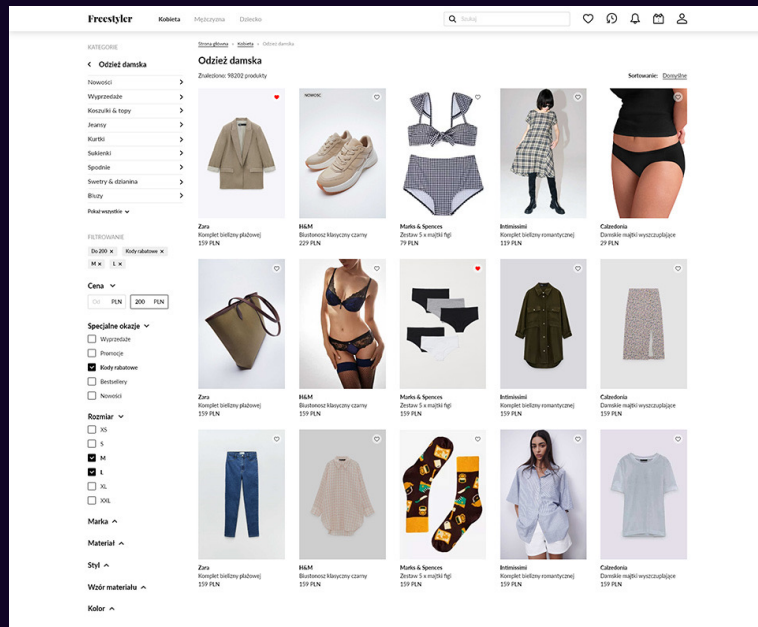

Scope of work: Benchmark analysis • Functional design and content architecture • Mockups (RWD) • Prototypes (desktop and mobile versions) • Initial graphic concept

# Fashion aggregator

Online aggregator of fashion offers

2021

# Europ Assistance

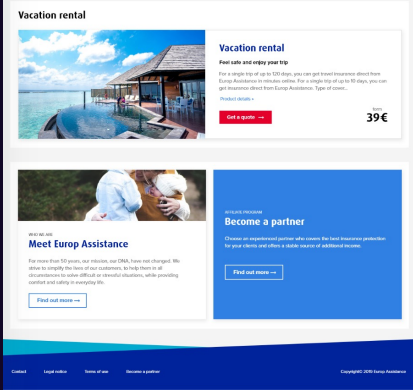

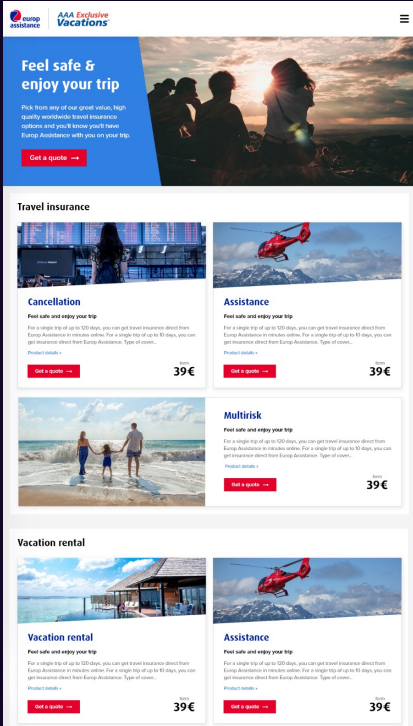

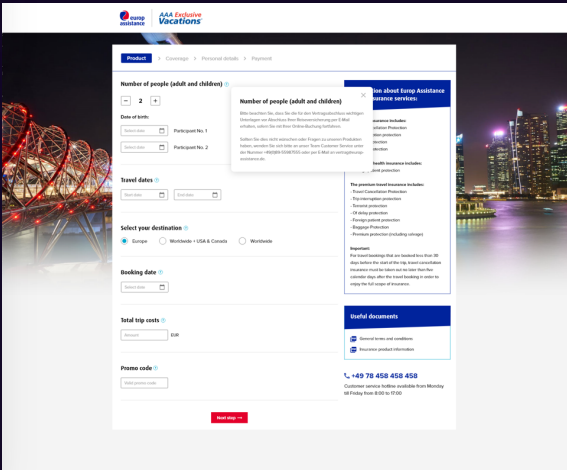

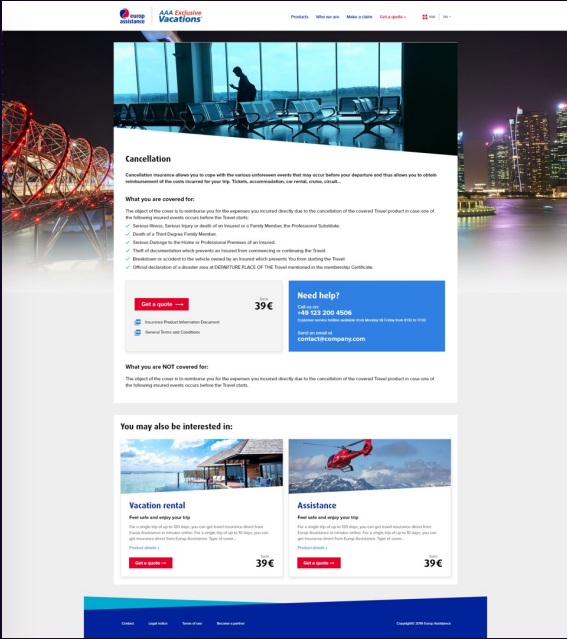

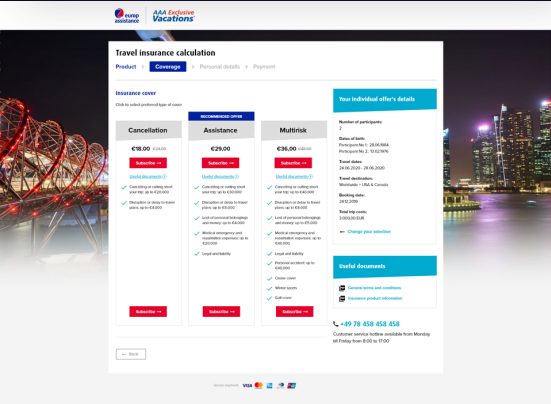

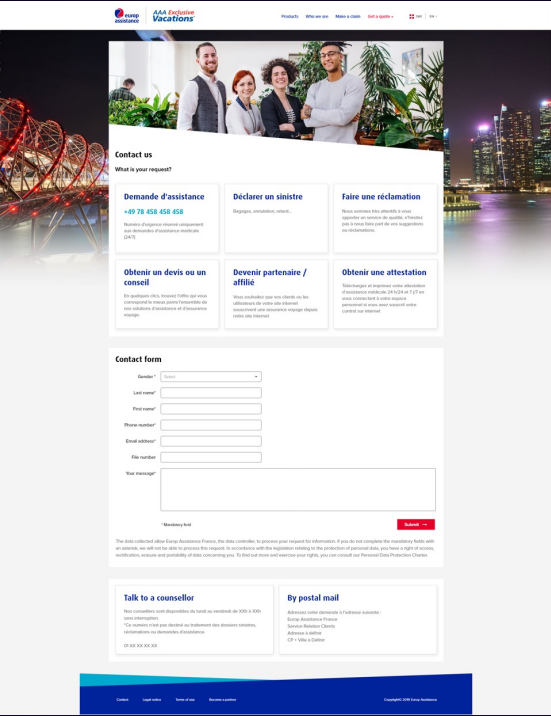

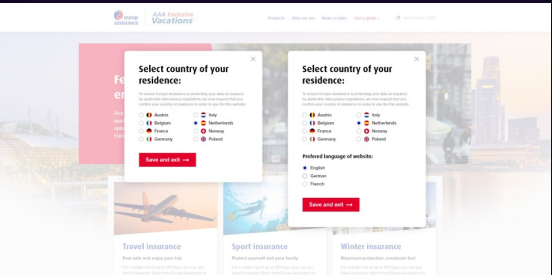

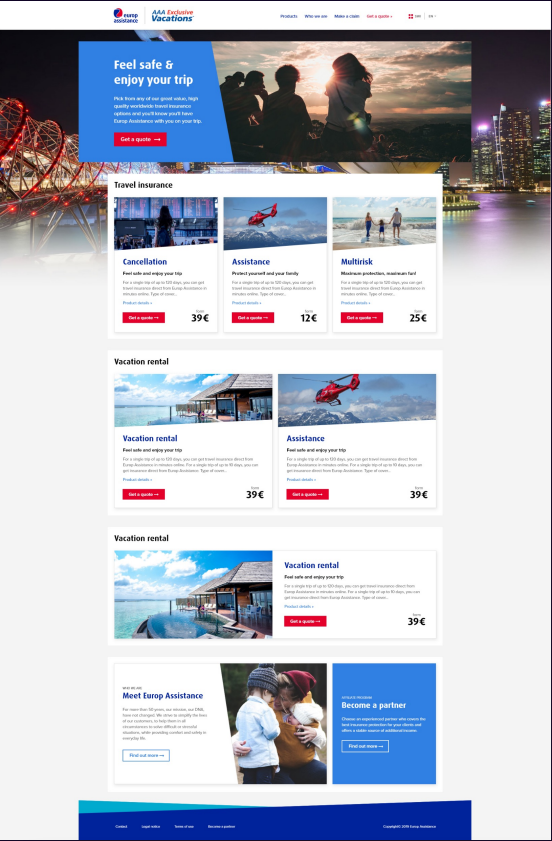

## Lead Designer

Design of an insurance sales system for the Europ Assistance partner network. The solution enabled partners operating under their own brands to manage and sell the full range of insurance products. The system was designed to support customer service across eight European markets and to present the offer in eight languages.

Scope of work: Information Architecture • Wireframes • Prototyping • Final UI Design.

The website has been launched in June 2020: <https://travel-insurance.europ-assistance.com/en>

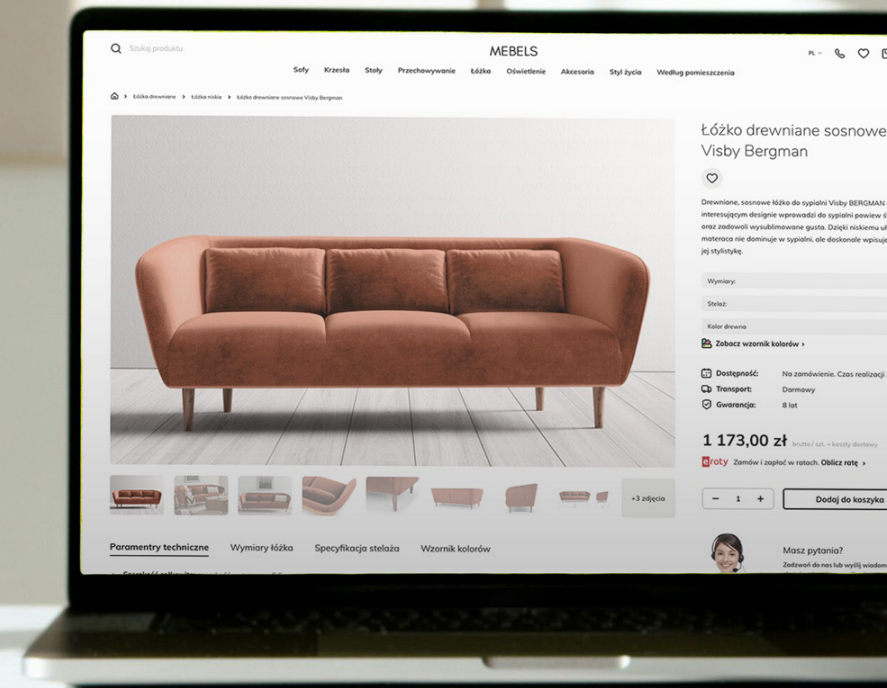

MEBELS | 2019

# Mebels.eu

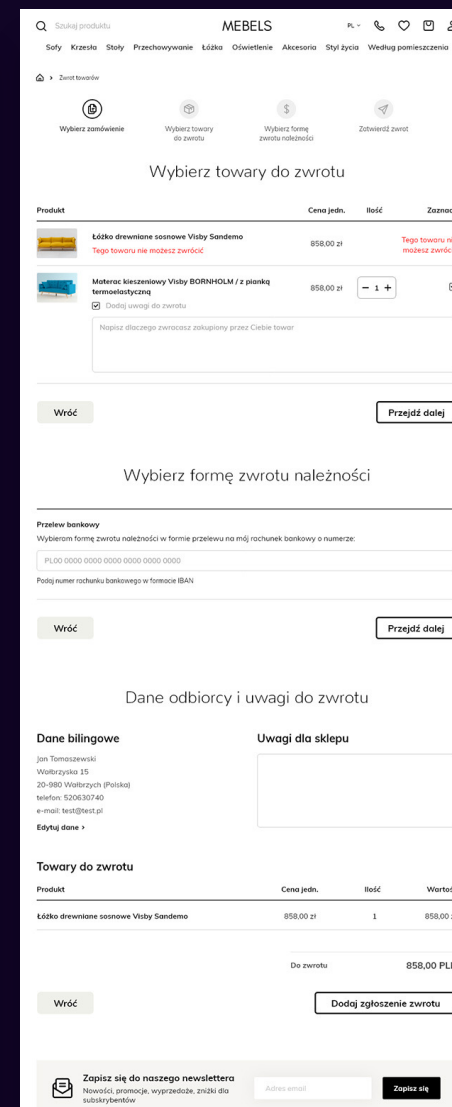

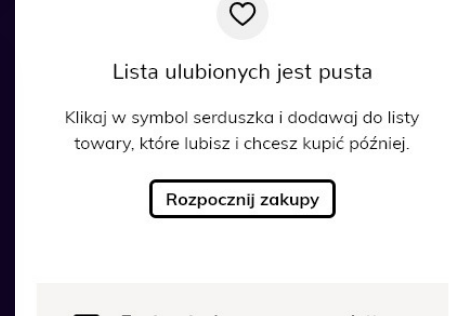

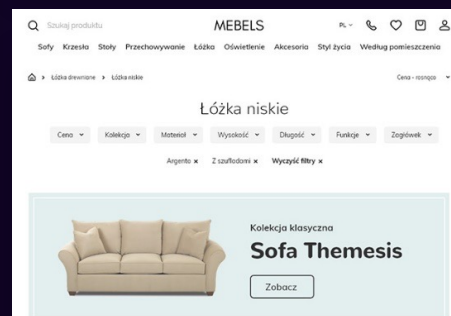

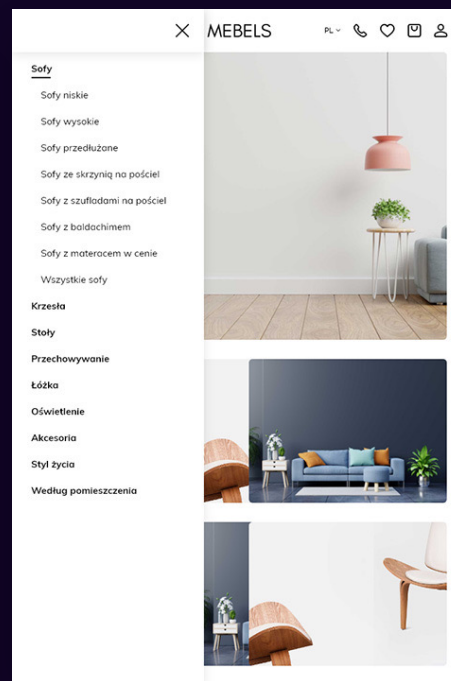

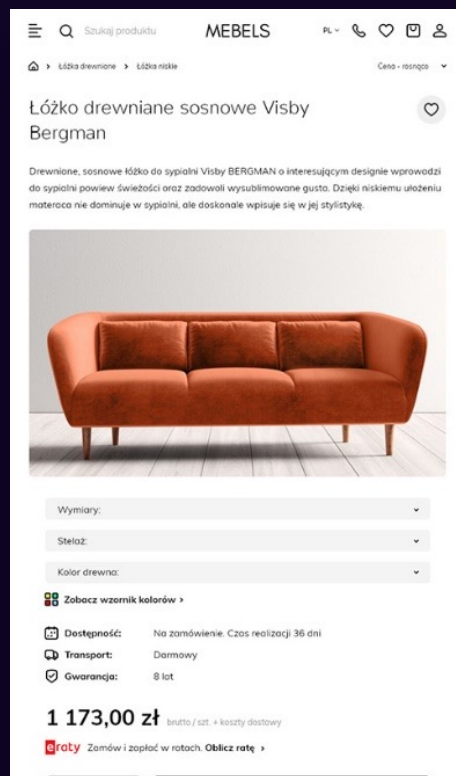

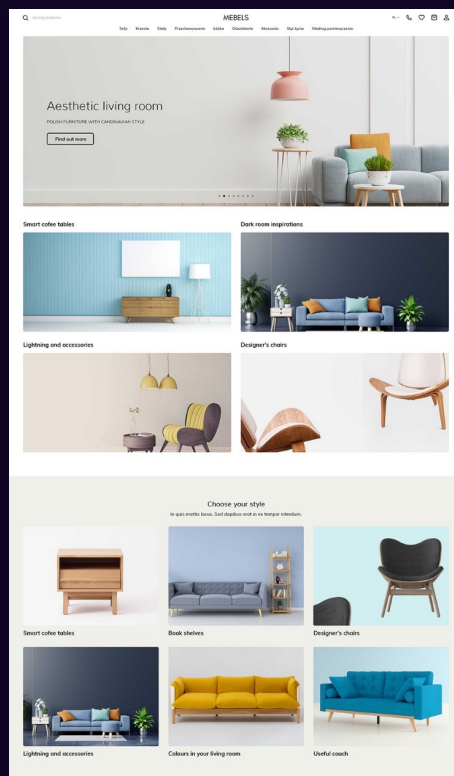

## Web Designer

A classic e-commerce website showcasing the furniture collection of Chrobry Group. The main challenge was adapting the design to the technical and UX standards of the external sales platform provider, which enabled a fast and cost-effective launch of a fully functional website.

Scope of work: Functional design • Information architecture • Graphic concept / visual design • Responsive mockups (RWD) • Development documentation

Millennium  
bank

2016 - 2017

# Goodie.pl

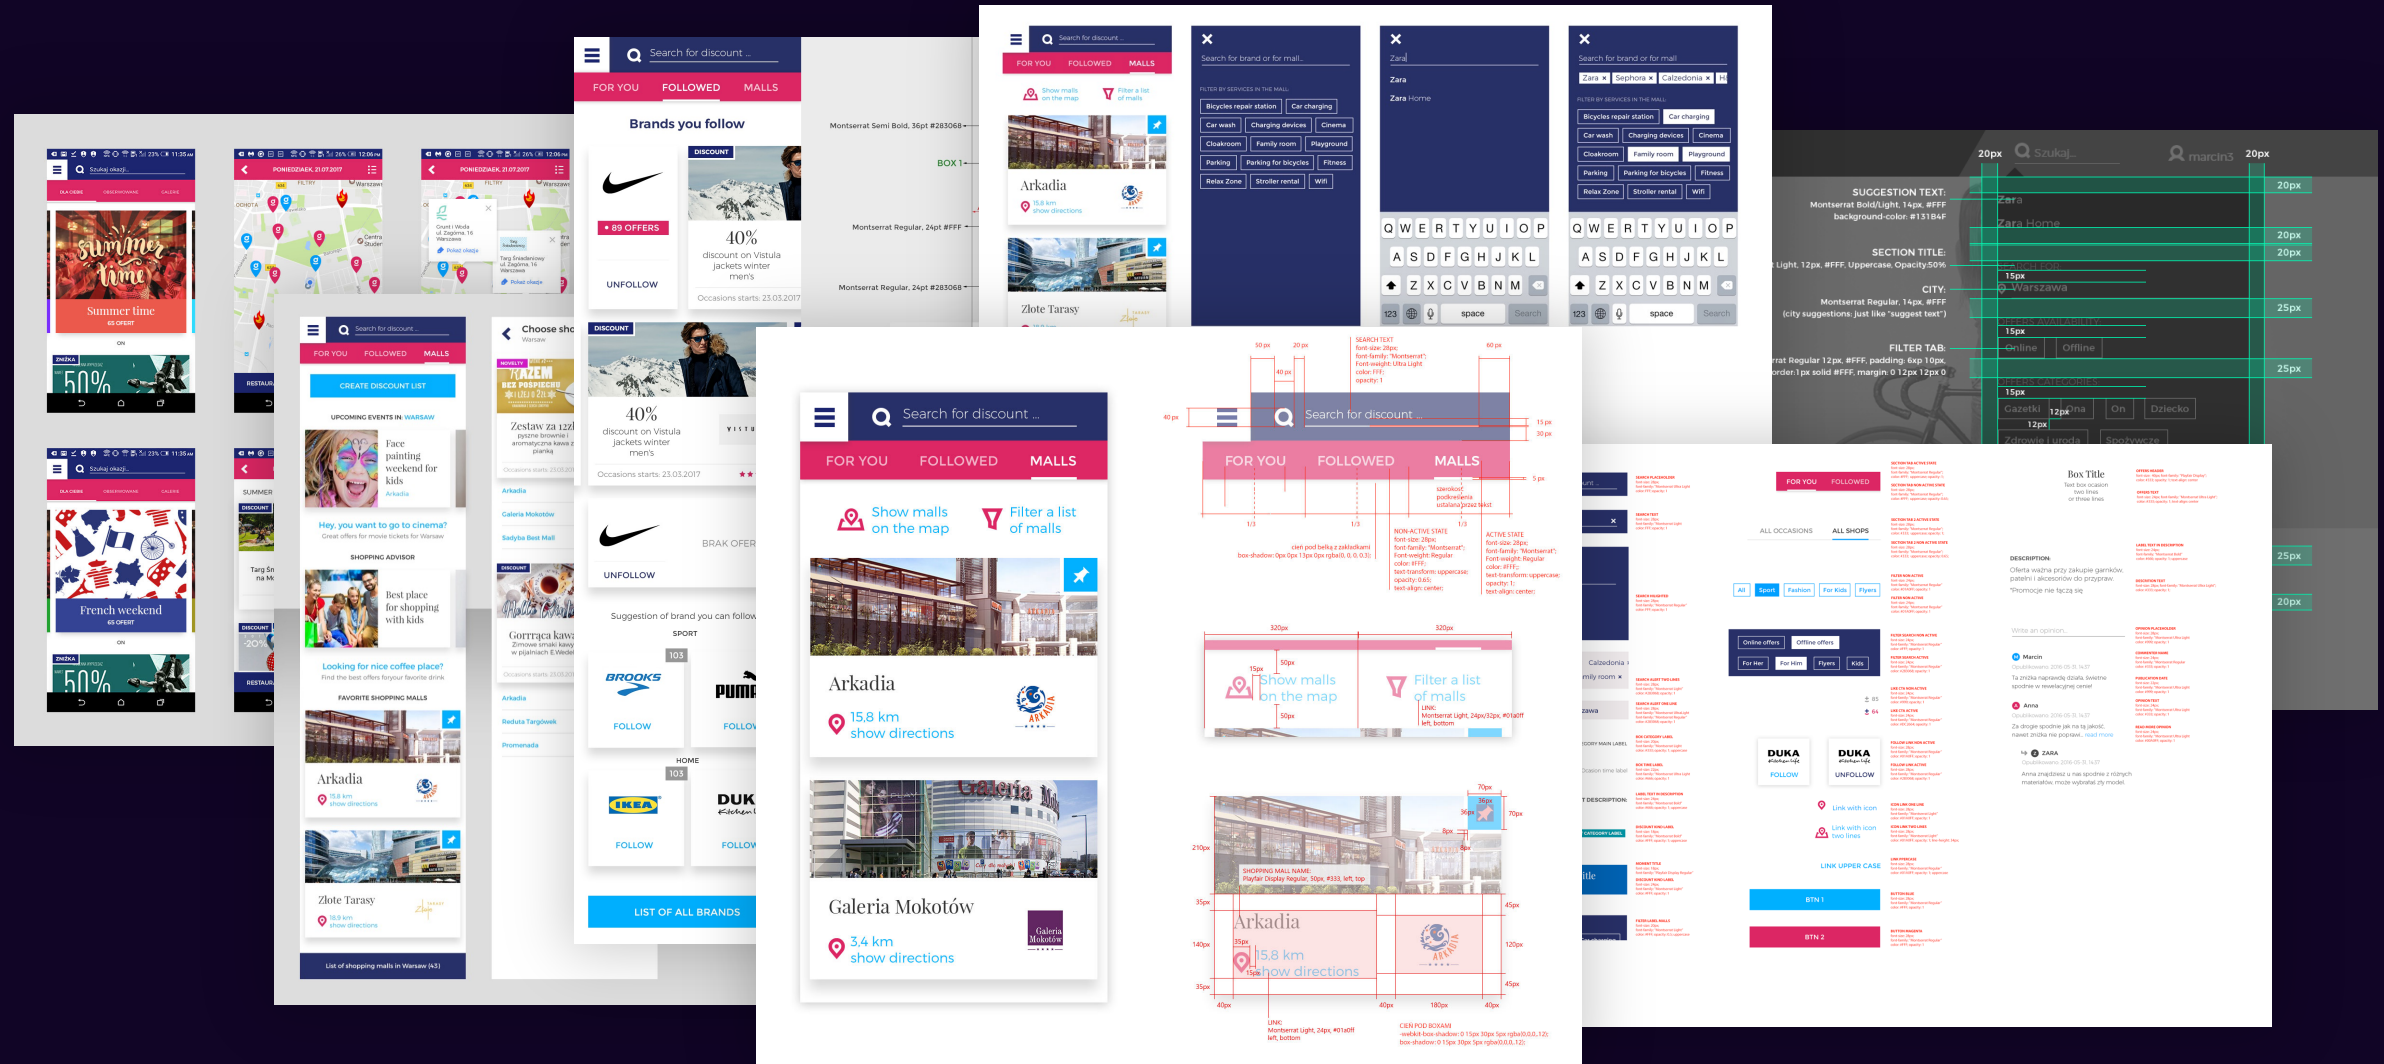

Head of Design Team

# Goodie.pl

2016 – 2017

A new startup project within the bank's structure

A new startup project within the bank's structure

Creation of a new non-banking service within Bank Millennium's ecosystem, designed to broaden the base of potential customers and enhance engagement with the bank's offer. The project focused on delivering the most accurate, user-friendly search experience for promotional deals across Poland.

Key responsibilities:

- Co-creation of the overall service concept, including naming, logo design, and functional framework
- Art direction and supervision of the UX/UI team
- Coordination with web and mobile development teams
- Preparation of mockups, wireframes, and interactive prototypes
- Contribution to the visual design and brand identity
- Ongoing work on the evolution and feature development of the application

The service launched in 2017 as Goodie (goodie.pl). For my contribution to the project, I received the President of the Management Board Award at Bank Millennium.

BGK | 2015

# Bank BGK

## UX/UI Designer & Project Leader

A redesign carried out as part of the bank's information service modernization (transition to RWD). The work included incorporating requirements and content-presentation guidelines provided by multiple internal departments.

Scope of work: Usability audit of the existing website • Workshops with bank stakeholders • Two rounds of user research (planning, conducting, and analyzing individual interviews) • Wireframes / mockups • Initial visual design

The new website was launched in 2015: [www.bgk.pl](http://www.bgk.pl)

[illegible]

2024

# House of Automotive Skills

Creative Designer

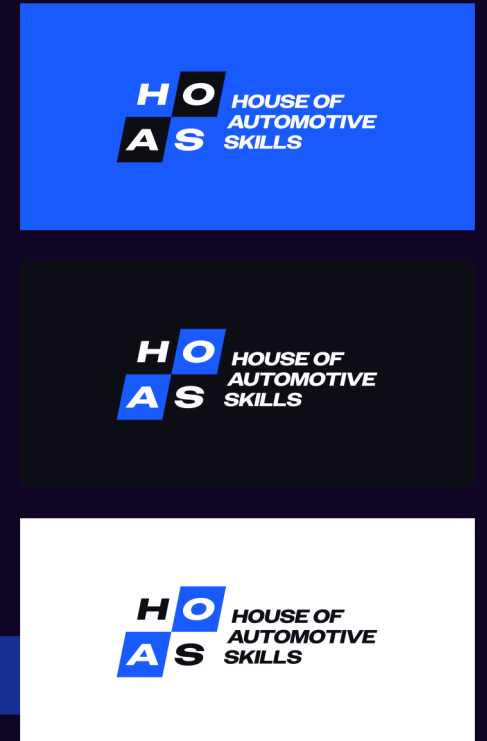

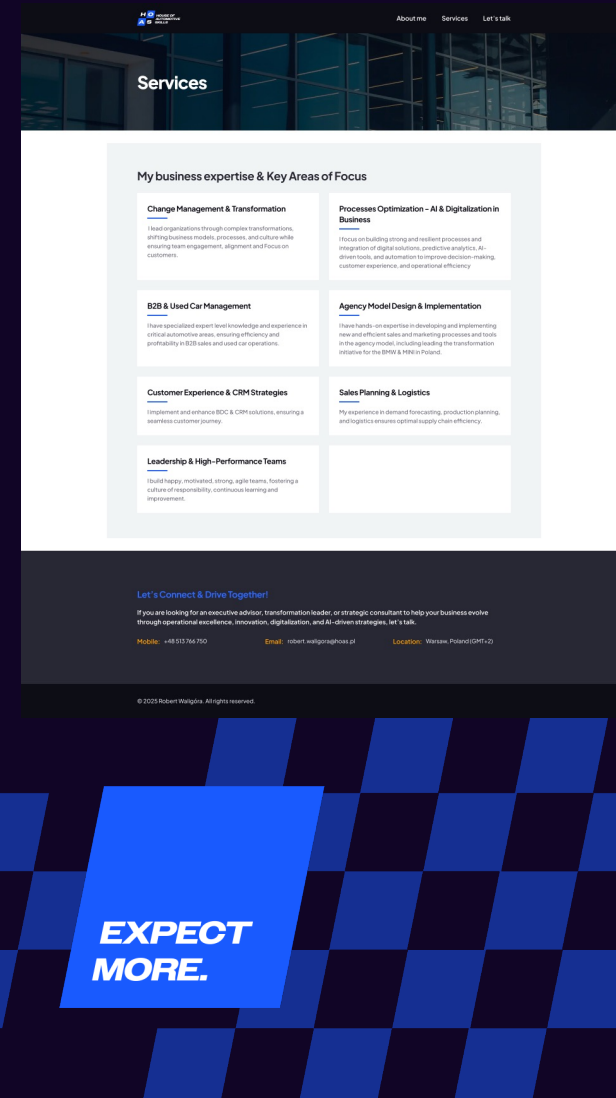

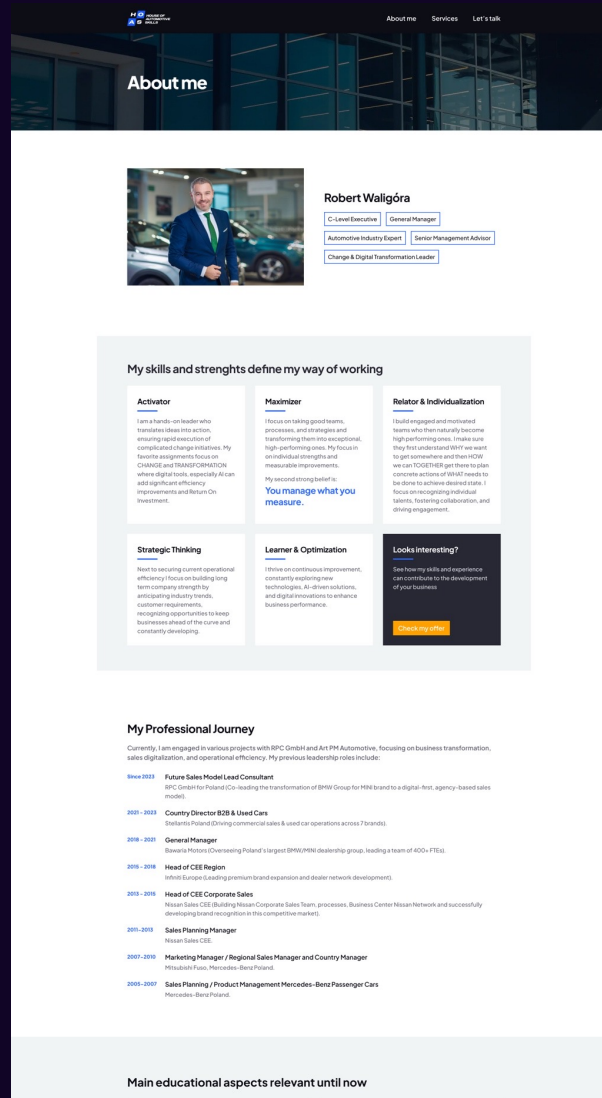

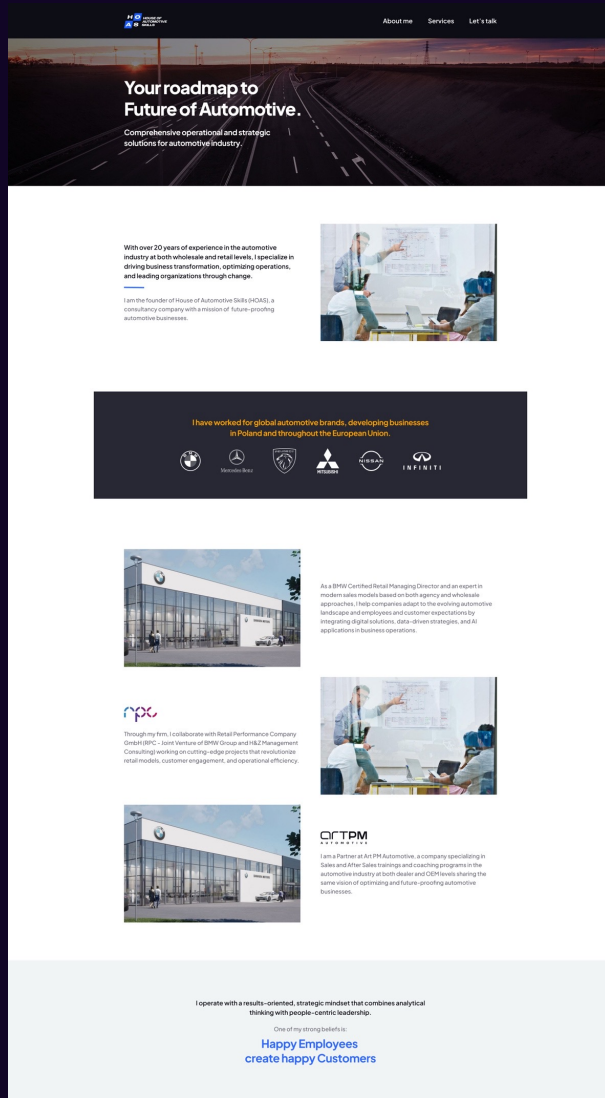

Basic branding and the design and development of a WordPress website for a new company in the automotive training sector.

[www.hoas.pl](http://www.hoas.pl)

## 2024

## Basic branding, graphic design, and website development

H2HOME | 2023

# House 2 Home

Web Designer

Graphic design and UX for a web platform supporting the architectural and interior design process. The project also included developing the concept and UI for an architect-focused application dashboard (logged-in area)

[www.h2home.pl](http://www.h2home.pl)

Rejestracja i zakładanie konta

Aby zarejestrować się na stronie H2Home, należy wypełnić formularz rejestracyjny i kliknąć przycisk.

Czym jest Dashboard?

Dashboard to miejsce, gdzie możesz zobaczyć wszystkie projekty, które masz w realizacji.

Do czego służą podstawowe funkcjonalności dostępne z poziomu Dashboardu?

Podstawowe funkcjonalności Dashboardu służą do zarządzania projektami i kosztorysami.

Czym są inspiracje przypisane do Projektu?

Inspiracje to galerie zdjęć, które możesz przypisać do konkretnego projektu.

Jak najlepiej dodawać Produkty i Inspiracje?

Produkty i inspiracje możesz dodawać bezpośrednio z poziomu Dashboardu.

Jak dodać nowe pomieszczenie?

Nowe pomieszczenie możesz dodać klikając na przycisk „Dodaj nowe pomieszczenie”.

Jak korzystać z opcji dyskusji w wersji pomieszczenia?

Dyskusja w wersji pomieszczenia służy do komunikacji z klientem.

Jak rozpocząć dyskusję na temat projektu?

Dyskusję na temat projektu możesz rozpocząć klikając na przycisk „Rozpocznij dyskusję”.

Jak komunikować się z zespołem i klientem?

Komunikację z zespołem i klientem możesz prowadzić za pomocą narzędzi dostępnych w Dashboardie.
